

# Petaluma Pet Experience

## TIPS & INFORMATION FROM NBAS

### PROTECTING EACH OTHER

- The main source of infection for COVID-19 is human-to-human transmission, and pet owners should not be concerned that their pets are a risk to their health.
- Just like human hands, pet fur could carry the virus from one person to another.
- Wash hands well with soap after touching any pets or their belongings, and avoid pet kisses-- them and you!
- If your pet is sick or injured, call your vet before going to surgery.
